(706) 545-3512 / 545-2211

FORT BENNING – A wildfire is burning in the impact area on main post.

The fire has been contained but it will continue to burn until adequate rainfall extinguishes it or it burns itself out.

Winds from the north had kept the smoke away from populated areas, but a wind shift Thursday evening caused smoke to drift on to the main post cantonment area.

The winds today are predicted to be from the north, which should keep smoke confined to the impact area.

No injuries or structural damage have been reported.

For more information, call the Public Affairs Office at (706) 545-2238. After duty hours and on weekends, call (706) 545-2218.
